

CURRICULUM VITAE

Avinash Sharma

Email: avisharma.civil@gmail.com

Contact No: +919415959540

Personal Profile

- **Date of Birth:** 10th July 1986
- **Nationality:** Indian
- **Marital Status:** Single

Languages

- English
- Arabic
- Hindi

Passport Information

- **Passport No:** U 0628332
- **Renewed In:** 23-01-2020
- **Expiry:** 22-01-2030
- **Places of Issue:** Oman

Permanent Address

111, Parewatar
Kushinagar (U.P)
INDIA
PIN-274402

Objective

To work as an **Engineer** in a challenging environment to enhance my potential and efficiency so that my inter-personal skills can be utilized to achieve objective of organization, this provides me opportunity of continuous learning.

Profile Summary

A versatile and proven decision-making engineering professional with over **11 years** of extensive experience in major projects in Brown Field, On/Off Plot Construction and Maintenance, Oil & Gas, Petrochemical and Refinery industries. Seeking a responsible position where I could utilize my knowledge, experiences, exposure and acquired skills towards continuous growth and advancements along with organizational developments.

Professional Qualification

- Diploma in Civil Engineering

Academic Qualification

- Class XII from Uttar Pradesh Board, Allahabad, India.
- Class X from Uttar Pradesh Board, Allahabad, India.

Training

- Operating System - MS Dos & Windows
- Industrial First Aid & Emergency Resuscitation
- Fall Protection Safety Harness 100% Tie-off/ on
- Team Brief & Toolbox Talk Presentation

PDO Training.

- O401 Appointed Person BS7121
- Crane/Lifting Operations Supervisor
- Safety in Slings and Signaling
- PTW Applicant – PDO Approved
- HSE Orientation.
- Authorized Gas Tester.
- H2S & SO2 Awareness.
- AHA Heart Saver.
- Industrial First Aid & Emergency Resuscitation
- CPR & AED
- HSE LFS.
- Permit Signatory
- Ethics and Behaviors Training
- Asset Management System
- Competitive Scoping Foundation Training
- Environmental Awareness Training

- Energy Management & GHG Awareness
- IHTIMAM Awareness
- Lean Awareness
- PDO Quality Awareness
- Digital Gateway
- Social Engineering
- Social Network
- Information Security Awareness

Qatar Petroleum Training.

- Safety Induction.
- H2S/BA.
- Confined Space Entry.

SAUDI ARAMCO Training.

- Permit Receiver – Saudi Aramco Approved
- Near Miss, Incident & Accident Investigation.
- Safety Orientation
- General Requirement for Scaffolding
- Portable Fire Extinguisher Training & Fire training.
- Industrial First Aid & Emergency Resuscitation
- HOT Works, COLD Works, Confined Space Entry, RELEASES & Hazards liquids Gas Works.
- DBP & Road Assessment
- HAZCOM

Duration:

Dec 2021 to till date

Details Of Working Experience

Company : Arabian Industries Projects LLC

Designation : Engineer – Civil & Structural

Department : EPC

Project Details

Project : Project Delivery Contract (PDC-North)

Client : Petroleum development Oman (PDO)

May 2021 to Dec 2021

Company : Indian Oil

Supply Agency: Sanmarg Projects Pvt. Ltd

Designation : Civil Engineer

Department : PMC

Project Details

Project : Kandla to Gorakhpur LPG Pipeline project (2757Km)

Client : IHB

Feb 2021 to April 2021

Company : Qatar Petroleum

Supply Agency : - Energy Technical Service LLC.

Designation : Civil Supervisor

Department : PMC

Project Details

Project : Mesaieed Refinery Shutdown / Turnaround.

Jan 2018 to Feb 2021

Company : Worley Persons Arabian Industries (JV)
Designation : Supervisor - Civil & Structural (PDO Approved)
Department : EPC
Project Details
Project : Integrated maintenance Contract (IMC-South)
Client :- Petroleum development Oman (PDO)

Sept 2013 to Nov 2017

Company : ALASCON COMPANY Ltd.
Designation : Asst. Project Coordinator.
Client :- SAUDI ARAMCO

Aug 2012 to July 2013

Company : NEWTON Engineering
Designation : Project Supervisor.
Client : NTPC

Responsibilities:

- Generate all testing protocols, certificate and others documents that are aligned to the established standards and linked to the respective equipment within the CMMS.
- Conduct civil/structural Engineering activities throughout all stages of the assigned projects.
- Participate in project pre-commissioning and commissioning and hand-over activities.
- Coordinate and manage project construction, operations, planning and delivery.
- Arrange and ensure fulfilment of project resources and materials. Handle project logistics and ensure efficient coordination of project activities.
- Comprehensive working knowledge and understanding of the contract documents (including Turner's contract, plans, specifications, ITP's, QCP and applicable codes).
- Ensure strict adherence to ethics and compliance requirements at all times.
- Understand the project execution plan and coordinate Quality & HSE Control procedures at appropriate stages of the work and in line with the project schedule.
- Verify with vendor TC for material.
- Maintain continuous inspection of works at site and issue the necessary Remedial Notes for any defected works observed at site.
- Support and execute construction and maintenance activities by defining the scope, calculating resources requirement, establishing standards and protocol requesting.
- Implement project-specific QA/QC Plan in coordination with the project safety plan.
- Ensure that all materials used and works performed are in accordance with the specifications.
- Ensure work is performed to established technical requirements defined by project documentation including drawings, specifications, procedures, inspections, test plan and work instructions.
- ROW/ROU Work Trenching & Levelling, Backfilling, Row Restoration, Open cut Crossing & Marker Installation work in Pipeline.
- Inspection and construction of Earth moving works, flowlines or pipelines,

Foundations, OHL works, RCC & Structural Works, Pipe supports, Pits, Fence works, Steel Structural works, anti-termite treatment / concrete treatments work, Concrete pouring works, water proofing, Grouting, Protective coating, sand blasting, refractory work, all kind of painting work etc.

- Review/witness construction material tests like Sieve analysis of course & fine aggregates, Cube Test, Slump Cone test, mix design & Soil compaction or FDT, setting out, formation level, Pre-pour & Pouring, Alignment, BP samples, water samples, etc.
- Soil resistivity & geotechnical investigation of new plant, OHL, ROU main line or pipelines, PS location etc.
- Reviewing & approving of Contractor's Method Statement, Risk Assessment, HRA, Job Safety Analysis, Rigging & lifting methods and other construction procedures.
- Forecasting the costs of different resources needed for the project
- Ensuring it that the contractor personnel are qualified appropriately and works are carried out in a safe and efficient manner.
- Contractor / Sub-contractor Tender management including preparation of bills of quantities, contract conditions and assembly of tender documents.
- Conduct audits to assess the extent of compliance and continuing effectiveness of Quality Management System with respect to Contract documents, IMS Manual and IMS Procedures on project.
- Conduct audits to ensure key plan and procedures are in place.
- Review and approval of bills and payments to subcontractors, vendors, suppliers etc.
- Preparing the scope and estimate and getting approval from client and co-ordinate to closing the billing & document procedure.
- Enhance and demonstrate commitment to raising HSE standards and proposing new initiatives or improvements.
- Ensuring it, assigned work is managed and delivered to CLIENT satisfaction.
- Preparation of Method statement for upcoming works, analyses the safety aspects and review JHA & JHI and Applying PTW for the job.
- Assist in the resolution of field construction queries interfacing with engineering and completions.
- Review "as built" drawings.
- Monitoring, evaluating, and reporting to CLIENT on quality and safety construction performed by the Contractor and their Subcontractors / Vendors.
- Resolve any unexpected technical difficulties and other problems that may arise.
- Supervising all jobs, Contractors and Sub contractor construction activities and providing technical inputs for methodologies of construction & coordination with site management activities.
- Stage wise Inspection as per approved QAP (Quality Assurance Plan) & procedure.
- Act as the main technical adviser on a construction site for Contractors, Subcontractors, craftspeople, and operatives.
- Repair and re-habilitation work of all type of structures like pipeline foundation, pipe sleepers, supports, equipment foundations etc.
- Analyzing total scope and planning the site activities as per client requirement.
- Planning of Casting depends upon the manpower, material work front and machineries available as per requirement.
- Preparation, verification and approval of lifting plan for daily routine lifting, as per site condition and critical liftings.
- Following, applying, verify of permit to work system.
- Performing all kind of lifting activity like Personnel, tandem and tailing.
- Preparation of lifting plan for confined space or blind lift.
- Recognizing hazards and taking appropriate and timely corrective action.
- Prepare and maintain related paperwork such as third-party certificates for equipment, lifting gear, Riggers, Operators, job reports, load charts and other

similar administrative documents.

- Crew allocation and resource management.
- Issuing permit to permit holders and briefing job content and related hazards.
- Conducting joint Site visit with client for the clarification of critical jobs.
- Daily participation of the production meeting in order to establish the priority works.
- Surveillance the storage yard to confirm the materials are segregated in accepted condition without any damage and roll over position etc.
- Follow and practice of company safety standards and norms and conducting safety tool box meeting on daily basis and providing safety awareness and job complications to work.

Saudi Arabia Driving License Details: -

- **License No:** 2375162308
