**10 THINGS YOU NEED TO KNOW ABOUT CELLGEVITY**

**#1: WHAT IS CELLGEVITY?** CELLGEVITY is not a drug or medicine but a food supplement that contains RiboCeine and 12 other synergistic ingredients that is needed by our body to continue producing GLUTATHIONE.

**#2: WHAT IS RIBOCEINE?** RIBOCEINE is a medical breakthrough technology developed by a leading medicinal chemist Dr. Herbert T. Nagasawa that combines D-Ribose and L-Cysteine to produce a compound that successfully delivers Cysteine direct into the cells. Prior to this breakthrough technology, scientists for many decades have been trying without success to figure out how to deliver the amino acid Cysteine into the cells because of its fragile nature. Cysteine is the most important ingredient that is required by our body to continue producing glutathione but, our cells cannot get enough of it from the foods we eat because of our complex digestive system.

Dr. Herbert T. Nagasawa, after 25 good years of extensive research was able to discover a way by bypassing the digestive system by hiding the fragile molecule Cysteine inside D-Ribose (a natural sugar) and, when you ingest CELLGEVITY, it goes direct into the cells and splits into 2; D-Ribose is used by the body as ATP – your body's natural fuel. The L- Cysteine is delivered intact into the cells for Glutathione production. That is why all the independent studies (about 22 of them) agree that RiboCeine is a groundbreaking technology.

**#3: WHAT IS GLUTATHIONE?** Glutathione is not a drug; it is a compound that is produced naturally in our body. Apart from food, water and oxygen, the next most important molecule you need to live long, look younger and prevent disease is called Glutathione. It is possible you've never heard of it before and or your doctor had never told you about it before. This could be because glutathione is not like vitamin c or other drugs that is sold in a pharmaceutical shop.

It is endogenously produced (produced only inside your body) and each of the trillion cells in your body needs it to stay alive and also to carry out their metabolic functions. Every second of the day, our cells are under constant attack by germs, bacteria, viruses, pollution, toxins, drugs, oxidative stress, etc. God has created glutathione in our body to help protect our cells from these enemies.

Medical scientists call it the ultimate cell protector or the master antioxidant. It is the body's first line of defense and that is why your glutathione level determines how healthy you will live. The bad news is that, once you are above age 21 your glutathione level begins to deplete and this could be further accelerated by the combined effects of poor diet, pollution, toxins, medications, stress, trauma, infections and radiation.

Glutathione deficiency has been attributed to be the root cause of over 75 chronic diseases such as cancer, diabetes, high blood pressure, stroke, hypertension, arthritis, poor sexual performance, dementia, etc. That is why, anytime you are concerned about improving your health or winning the battle against a chronic disease, the most important thing to do is to address the root cause of the disease – low glutathione level.

Today, no other medical product can boast of boosting glutathione like Cellgivity. Cellgivity has been found to raise glutathione by 300% better than the next best alternative.

**#4: WHAT ARE THE INGREDIENTS IN CELLGEVITY?** CELLGEVITY contains RiboCeine and 12 other natural ingredients that all combines to help our body to continue producing GLUTATHIONE.

**NATURAL INGREDIENTS IN CELLGEVITY**

1. **RIBOCEINE™:** This scientific breakthrough has changed the course of glutathione enhancement. Dr. Nagasawa's RiboCeine research was funded by the American National Institute of Health and the breakthrough (RiboCeine) was patented immediately because it is identified as a state-of-the-art advancement of superior quality. Riboceine is only available at Max International.

2. **ALPHA LIPOIC ACID (an influential antioxidant):** Alpha Lipoic is a super-effective antioxidant contained in Cellgivity that is naturally produced in the body as well as in plants and animals. ALA is vital to the production of

cellular energy; it neutralizes oxidative stress and other damage caused by free radicals. It is also improves memory because of its protective effects on brain and nerve tissues.

3. **BROCCOLI SEED EXTRACT.** (a cruciferous vegetable that promotes antioxidant growth): The active ingredient in Broccoli Seed Extract is Sulforaphane, which is found in all cruciferous vegetables. Broccoli Seed Extract is so extreme that it has been known to accelerate antioxidant activity for up to three days with its anti-bacterial and anti-cancer properties. Broccoli Seed Extract neutralizes toxins and carcinogens within the cells, so they can be eliminated. This extract is a fundamental agent in generating anti-aging results.

4. **TURMERIC ROOT EXTRACT** (an Ancient, Cutting-edge Antioxidant)

Possibly the most potent nutrient in Cellgevity is Turmeric Root Extract or Curcumin. You may recognize this spice as the main ingredient in Indian/Asian curry. Curcumin is found in the root of the Turmeric plant and recent studies have shown that Curcumin is a multi-effective antioxidant that reduces cellular inflammation, generates Phase II enzymes supporting detoxification, combats free radicals and has recently been proven to be a superior anti-aging agent. Research shows that Curcumin has a powerful natural protection on memory cells and acts as healthy food for the brain. Curcumin has cognitive health benefits that astound scientists, so it's no wonder that Turmeric Root Extract is a very significant nutrient in Cellgevity.

5. **QUERCETIN** (Protector Antioxidant): Quercetin is a supporting flavonoid antioxidant that works with other antioxidants to produce over-the-top results. Quercetin is a major contributor to the restoration of antioxidants, including glutathione and Vitamin C. Quercetin is an excellent scavenger for active free radicals that are trying to damage healthy cells.

6. **VITAMIN C** (the Most Familiar of Vitamins): Vitamin C has easily earned its place as an essential nutrient in the human body for a myriad of reasons. As a Super Antioxidant, it is very useful in "jumpstarting" the glutathione production. Recent studies have shown that vitamin C has incredible anti-aging properties, especially in the skin, and also an exceptional ability to fight oxidative damage and free radicals. Vitamin C is a must in Cellgevity.

7. **RESVERATROL** (mainly found in red wine): Resveratrol has also been linked to prevention of age-related problems such as heart disease and insulin resistance. Researchers believe that resveratrol activates the SIRT1 gene, a biological mechanism that seems to protect the body against the harmful effects of obesity and the diseases of aging. This potent antioxidant assists in cardio-protective properties, which explains the recommendation to drink a glass of red wine daily.

8. **GRAPE SEED EXTRACT** (Crushed Grape Seeds): Grape seed extract is beneficial for a number of cardiovascular conditions. Grape seeds have high concentrations of flavonoids, vitamin E, linoleic acid and phenolic procyanidins, which mean that the extract has extremely powerful antioxidant activity along with elevated anti-inflammatory properties and may help with a type of poor circulation (chronic venous insufficiency) and high cholesterol. It also reduces swelling caused by injury and helps with eye disease related to diabetes. In addition, Grape Seed Extract protects blood vessels from oxidative damage that adds to long life.

9. **SELENIUM** (a Trace Mineral with Gigantic Responsibilities): Selenium is a vital trace element that plays a critical role in reproduction, DNA synthesis and thyroid hormone metabolic actions, which are essential. Selenium has been proven to protect against cancer because of its ability to destroy oxidative cells and free radicals.

10. **MILK THISTLE** (a Flowering Herb): Silymarin is the active ingredient in Milk Thistle, and it is both a powerful antioxidant and anti-inflammatory. Cellgevity includes Milk Thistle in the assortment of antioxidants to complete a blend of antioxidants that positively affect the production of glutathione. Milk thistle has been used medicinally for over 2,000 years, most commonly for the treatment of liver and gallbladder disorders. The liver's job is to detoxify, cleanse the blood and produce specific proteins.

11. **CORDYCEPS** (a Powerful Fungus): Cordyceps has been used in Chinese medicine for centuries and is a fungus that is yet another form of an antioxidant. It is used for improving athletic performance, strengthening the immune system, supporting the liver and reducing the effects of aging and instigating longevity. Cordyceps is valuable for restoring energy and improving the quality of life, and with all its benefits is a required agent in Cellgevity.

12. **BLACK PEPPER** (in Mega Doses is an Accelerator): Black pepper is extremely valuable in accelerating the absorption of several nutrients, including the Curcumin, selenium and vitamin C that are in Cellgevity. So, with the addition of this one spice, these three nutrients are greatly multiplied for an extreme and complete utilization of each nutrient, which in turn magnifies the benefits of Cellgevity.

13. **ALOE EXTRACTS** (more than a topical for sunburn): Most people think of using Aloe as a topical for skin conditions or burns, but Aloe is extremely beneficial in Cellgevity because it contains all 20 amino acids, essential

and non-essential, which are the building blocks of protein in the body. Amino Acids are essential in manufacturing glutathione naturally because glutathione itself consists of three essential amino acids: glycine, Cysteine and glutamate. Acemannan, which is the active ingredient in aloe, is vital in supporting the immune system and other antioxidant functions.

**#5: WHAT DISEASE(S) DOES CELLGEVITY TREAT?** CELLGEVITY is not a pharmaceutical drug but a food supplement so, it does not claim to treat or cure any health condition but what it does is that it can boost your glutathione level significantly and when this is done, miracles can happen because the body is now empowered to heal itself naturally.

**#6: IS CELLGEVITY APPROVED BY REGULATORY AGENCIES?** CELLGEVITY is approved for consumption in Nigeria by the National Agency for Food And Drug Administration and Control (NAFDAC). Cellgevity is BSCG (Banned Substance Control Group) certified for use by professional athletes world wide as it contains No banned substance and also Halal certified.

**#7: WHAT'S THE TESTIMONY FROM PEOPLE WHO HAD USED CELLGEVITY?** Cellgevity users report positive experiences after using the product. For some people the result was almost immediately (within days or weeks) but for some between a month or two.

#### STROKE PATIENT COMPLETELY HEALED:

My name is Angela, I live in Lagos with my husband. I have an elder sister who lives in Owerre, Imo state. Sometime in July, 2016 I received a call from one of my sister's daughters that her mother was sick. She suffered stroke but the sickness had grown worse. This time she couldn't talk, walk and the hospital sent her home, perhaps to go home and die. The husband took her to their church, as the only hope. When I explained the situation to my husband, he was angry with me because he had told me about Cellgevity before but I didn't take it serious. So, I asked him if the product could still work for my sister as her case has become worse. He said we should try. So, we bought a pack of Cellgevity (4bottles) only and sent to Owerre through one of my elder brother. The first challenge we had was the church – they insisted that their members do not take drugs. I was confused but my husband called my brother at Owerre and asked them to move my sister away from that church, if they want her alive. Against the church's will, they move my sister away, back to their home. That day, they gave her 2 capsules of cellgevity (it was already evening). The next day they gave her 2 in the morning, 2 in the evening. After 5 days, my sister could recognize people around her, started talking and to the glory of God, if you see my sister today, you will never believe she had suffered stroke before.

#### BACK PAIN PATIENT COMPLETELY HEALED:

Carol D., 70+ yr old female from Ohio has this to say, "after taking the Cellgevity for just two weeks, I have noticed that the back pain that was a constant companion, has stopped. I can walk farther and bend easier without any strain on my back. Also, I am aware of more energy throughout the day. And my mind is clearer as I do my work... I am very happy with what Cellgevity is doing for me."

#### COGNITIVE CHALLENGES AND CONSTANT DEBILITATING HEADACHES GONE

Sandra Norris says, "Six years ago I had a head injury that left me with many cognitive challenges and constant debilitating headaches. Before taking Cellgevity, simple math and even writing a simple paragraph (that would normally take someone a few minutes) would be a huge long drawn-out struggle. Sometimes I could not even accomplish the task. Having a conversation in a public place was overwhelming. The background noise would be so overwhelming I could not hear or concentrate on the conversation. I would have "sensory overload", my brain would just shut down and I wouldn't be able to think or even understand what was being said. It was easier and less painful, physically and emotionally, to stay home. When I was introduced to Max International I started with MaxOne and then switched to Cellgevity several weeks later when it was introduced. I noticed 10 days into taking MaxOne that some of the short term and long term memory challenges I was struggling with {and thought would be my new normal} were beginning to improve. Since taking Cellgevity my memory, concentration, focus, and problem solving skills have all been improving. I am able to go to social events and the 'sensory overload' is not as common. I am thrilled that I continue to see improvements each week. Due to the constant debilitating headaches and another long term health issue, it has been years since I have had a good quality of sleep. I would be lucky to get 4 hours of sleep at a time and would always wake up more exhausted than when I went to sleep. Dreaming was rare. My doctor prescribed many natural and prescription remedies. Nothing ever helped. Since taking Cellgevity, I now get 7-9 hours of sleep, feel more rested and have very vivid dreams. I am also beginning to see improvement in the

severity of my headaches. I am so thrilled to be experiencing life again! Thank you Max International!"

### HIP & SPINAL ISSUES TREATED

I have a friend, a very young lady who has been having issues with her hip joints and spinal cord so she could not walk for months. She tried all medications within her reach and visited the best hospitals in Nigeria. The last option was surgery which they told her would give her a 50\50 chance of walking again. She has spent so much money with doctors and supplements without relief. I told her about Cellgevity and she bought 4 bottles first to test. After a few days she called me that she wants to register fully as an Associate because with what her doctors told her had no remedy, Cellgevity has already given her hope in just a few days. Today her legs are working well, she is walking and very happy, she calls me every day to thank me for introducing her to this great Cellgevity.

#8: WHAT ARE THE DOCTORS SAYING ABOUT CELLGEVITY? The following are what some medical doctors are saying about cellgevity:

Getting back together with your ex is a very tough challenge and I failed it many times after my fiance broke-up with me. due to my situation of smaller dick, but after I read about Dr Alex Anyway, after about 6 months of break up, she showed up at my place but couldn't bring her to knock. I got a text from her saying, I was just outside your door, I just stood there remembering all the good times we shared together. I was completely shocked as I thought I'll never hear from her again, totally am very great full Dr Alex for making me a man again now i got bigger and thicker dick she is amazed with my improvement on bed and thanks again Dr for getting back my ex

Thank you so much! I'm telling all my family and friends, your magic powers is truly a blessing. thanks to Dr Alex for making my dreams come true by returning my ex back to me I'm so glad!

via alexherbalsolutionhome@gmail.com or alexherbalsolutonhome@yahoo.com Whats App \_ +2349068579934 )hope this information brings joy to you all. He treat.

Cancer, HIV cure,diabetes, low sperm count, Pregnancy issues. Penis growth, lot more doc Alex is amazing

Regards. God help us all. Good lucks to everyone. wow Amazing give it a try ,
